

Mission Specialist LED Module

The VideoRay Mission Specialist **LED Modules** provide variable levels of illumination and beam pattern control. LED modules feature individually controlled spot/flood arrays and have a 60-degree spot beam, 110-degree flood beam and are constructed in a hard anodized housing.

Features

- 2 independent light arrays (38 W max ea.)
- 60° spot beam
- 110° flood beam
- Each array can be individually or gang controlled

Specifications

- 7,600 total lumens per LED light module
- 3,000 K CCT, 80 CRI White
- 2,880 Calculated minimum flux (lm) per array, 5,760 total lm each
- Individually controlled arrays (16 emitters per array, 32 total)
- 60 degree spot beam, 110 degree flood beam
- Hard Anodized, Potted Housing

Connectors

- 5-pin Male

VideoRay Part Number

- 70023 – LED Module only
- 70776 – LED w/ Mounting Kit
